

THE CRYPTO GROUP Managed Accounts

THE CRYPTO GROUP

Problem

We identify peculiar issues that arise from our daily financial life and we accept both long term and short-term fixes

Passive Income

Most individuals struggle with creating an alternate source of income that can generate substantial wealth while they go about their normal day to day activities. We seek to solve that by creating a scheme that makes your money work for you.

Retirement Plan

The average retired fellow does not get to create an ideal financial cushion before retirement; we seek to help these retired individuals have enough income stream to sustain them while they're retired.

Financial Freedom

Our primary goal is to set people up for their financial freedom and we stand by that goal stronger now than we did earlier. We want people to realize that they don't have to work extra hard to make that extra penny, they can let their money work for them.

Utopia

Our unique approach to solving these problems

Passive Income

We invest funds into short-term and long-term commodities. Our clients who are invested for long term can still make withdrawals on a month-to-month basis while still giving their account enough leverage to compound

Retirement Plan

We designed a retirement plan specifically for retirees, and this plan prepares our clients before retirement and takes care of them for as long as they want by generating profits from their already invested capital.

Financial Freedom

With our mutual fund, it's a gradual build up to your financial freedom, our growth is ever certain and ever consistent and we promise every client a unique experience they would be proud to be affiliated with and of course, a lot of money to be made.

TCGManaged Account

The Crypto Group is a unique investment platform that thrives specifically on managing investment portfolios for individuals and corporate bodies with unique market strategies that ensures a consistent and exponential growth in wealth over a period of time by investing resources/capital into Stocks, Bonds, ETFs, CFDs, Real Estate, Crypto currency etc.

We have existed for well over a decade and our core values are; Risk Management, Compound Interest and Long-Term Investments.

Investment Pricings

Find a plan that suits
your needs-.

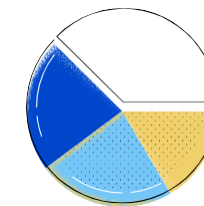

All Plans generate an average
of 2.5-15% weekly ROI.

But higher capital funded
accounts earn more because
of their level of exposure to
risk and ability for them to
take on more opportunities

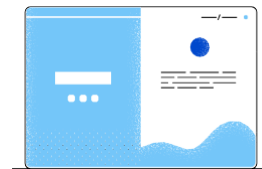

TCG Classic

\$10,000.00 MINIMUM

TCG Platinum

\$50,000.00 MINIMUM

**TCG Premium
Plan**

\$250,000.00 MINIMUM

**TCG Exotic
Plan**

\$750,000.00 MINIMUM

Timing

Why you should
invest your money
with TCG NOW

Solid Returns

Money is bound to inflate and the location of your funds determines how much inflation your money is exposed to. Unlike banks, money invested with TCG has little or no inflation and this means more exposure to exponential growth

Broad Diversification

We invest in a broad spectrum of commodities depending on their profitability at that point in time. This keeps our clients exposed to profit making on an hour to hour basis over a long period of time.

Professional Management

We have professional traders formerly trading with Morgan Stanley and Goldman Sachs working in our company. Our trade desk is multi-diverse and multi-efficient to deliver the task at hand, making sure our clients funds are **SAFE**.

Target Market

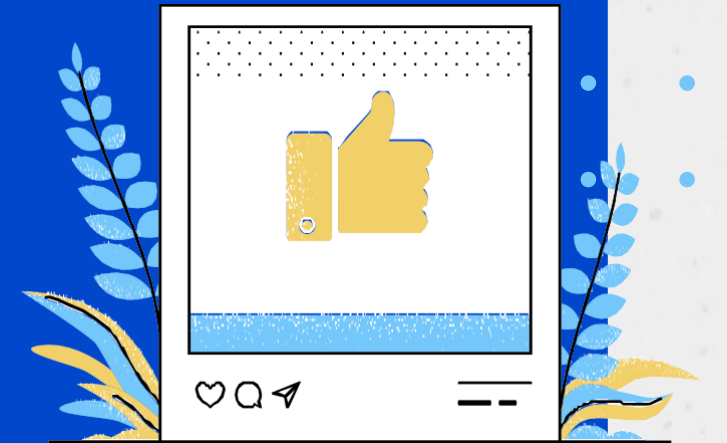

Who are the customers you want to cater for?

Working Class

We are looking for investors who have a lot going on with little or no time to manage their finances as well as traders who would like to trade but don't want to lose their money or spend all that time trading

Retirees

We are also looking to work with individuals planning for their retirements or those who are already retired. Remember, it is never too late to start preparing for your retirement.

Our strategy seeks to:

- Deliver consistent returns
- Preserve principal
- Provide liquidity

Competitive Advantages

Our edge over the others

Short Term Investment

With our competitors you have to invest for a minimum of 5 years, but here at TCG we offer a minimum of 3 months and in this period of time, you can withdraw your earnings weekly.

Minimum Investment and Low Fees

With TCG you can invest as little as \$1,000 and we charge a 10% commission after profits.

Better Risk Management

We have a dedicated team that makes sure our clients don't lose money unnecessarily; our level of dedication to this makes us better so we don't use the cliché disclaimer that says "You might lose all and more than what you invested".

Higher Returns

Due to our dedication to managed accounts, we spend more time growing rather than analyzing and we tend to take more risks because those risks are well analyzed and taken with caution. This puts us at a safe horizon to make more returns.
